

SPARK PLUG TESTER SPCT 100

SPCT 100

SPARK PLUG CLEAN& TEST MACHINE.

If the carbon is attached to the spark plug, causes ignition's weakness, it could generate the engine function's deterioration and increasing oil's consumption. This is designed to improve the engine's ability through cleaning and testing of the spark plug.

Features

- It can completely remove carbon from spark plug owing to blows the minute abrasive particle by high pressure air.
- It can check the ignition of spark plug have their best conditions.
- It can also automatically clean the spark plug.

Specification

Model	SPCT-100
Input voltage	Single phase 220V
Frequency	50~60Hz
The working pressure of air	7 ~ 10KG/cm ²
The quantity of sand for working	350g
The particle of sand	60#
The voltage of tester when spark test ing	15,000V
Dimension	490(W)mm × 280(L)mm × 265(H)mm
Weight	9.3KG
Accessory	Adapter for plug 12mm, 14mm each 2pcs Adapter case 1pcs, Spare sand 350g
